

Prairie Center Parkway and Bromley Ln – Example of 24' trim back

The Prairie Center currently trims their property back approximately 24 feet.

A view facing south bound shows a clear sidewalk and the prairie grass has a manicured edge.

42nd and Bridge St – Example of 26' trim back

Visibility for turning motorists is not obstructed.

Telluride and Bridge St – Untrimmed example

This is an example of a property not being maintained. The sidewalk has encroaching weeds. The portion between the roadway and sidewalk would be trimmed plus 20 feet past the sidewalk edge under the proposed ordinance changes.

Telluride and Southern St – Over-trimmed example

Trimming the entire field at Telluride and Southern exposed several mounds and left patches of weeds uncut due to the mounds. This field had previously been unmaintained by the owner for a large part of the season and was entirely cut after complaints and contact by Code Enforcement enforcing the current ordinance.
