I. INTRODUCTION

A. Purpose and Intent.

The City's objective in approving the Service Plan for the Districts is to authorize the Districts to provide for the planning, design, acquisition, construction, installation, relocation and redevelopment of the Public Improvements from the proceeds of Debt to be issued by any District or other legally available revenues of the Districts, and to provide for the operation and maintenance of all or a portion of the Public Improvements. The Districts are independent units of local government, separate and distinct from the City. The Public Improvements shall be designed, constructed, operated and maintained in accordance with the City Approvals, and shall be for the use and benefit of all anticipated residents and taxpayers of the Districts.

The Districts are being organized under a multiple-district structure. The size and scope of the Project and the projected cost of the Public Improvements necessitate phasing made possible through the formation of multiple districts. As this Project is approximately 140 acres, and as the projected cost of the Public Improvements is over Thirty Million Dollars (\$30,000,000), it is anticipated that the Project will be developed over an extended period of time, which will allow for phased absorption of the Project and corresponding Public Improvements. Additionally, such structure assures proper coordination of the powers and authorities of the independent Districts and avoids confusion regarding the separate, but coordinated, purposes of the Districts that could arise if separate service plans were used.

The multiple-district structure will also help assure that Public Improvements will be provided when they are needed, and not sooner. Appropriate development agreements between the Districts and any developer of the Project will set forth when the Public Improvements are required to be constructed and may allow the postponement of financing for improvements which may not be required to be constructed until well into the future; thereby helping property owners avoid the long-term carrying costs associated with financing improvements too early.

The relationship between the Districts with regard to the financing, construction, operation and maintenance of the Public Improvements will be further set forth in one or more intergovernmental agreements between the Districts.

This Service Plan is intended to establish a limited purpose for the Districts and explicit financial constraints that are not to be violated under any circumstances. The primary purpose of the Districts are to finance and fund the construction of the Public Improvements, and for any District to provide ongoing Operation and Maintenance of all or a portion of the Public Improvements. The Districts shall be authorized to finance the Public Improvements that can be funded from Debt which is to be repaid from the Debt Service Mill Levy, Special Assessments, Fees, and/or other sources of revenue, and to Operate and Maintain certain of the Public Improvements as set forth in the City Approvals, including, without limitation, the maintenance of all landscaping and drainage tracts within the boundaries of the Districts.

It is the intent of this Service Plan to assure to the extent possible that no property bear an economic burden that is greater than that associated with revenues from the Debt Service Mill Levy, Fees, Special Assessments, and/or other sources of revenue, even under bankruptcy or other

unusual situations. Generally, the costs of Public Improvements that cannot be funded within these parameters are not costs to be paid by the Districts.

B. Need for the Districts.

There are currently no other governmental entities, including the City, located in the immediate vicinity of the Project Area that consider it desirable, feasible or practical to undertake the planning, design, acquisition, construction, installation, relocation, redevelopment, financing, operation and maintenance of the Public Improvements. Formation of the Districts is therefore necessary in order for the Public Improvements required for the Project to be provided in the most economic manner possible.

Actions of the Districts which violate the limitations set forth in IV.A. above or in V.B, V.C or V.D herein shall be deemed to be material modifications to this Service Plan and the City shall be entitled to all remedies available under State and local law to enjoin or modify such actions of the Districts, including the necessity for the Districts to process a Service Plan Amendment. All Service Plan Amendments shall be processed by the City in accordance with the provisions of the Special District Act, including, without limitation, all notice and public hearing requirements.

All Debt-related election ballot questions shall provide that in the event of a default, the maximum interest rate on any Debt shall not exceed fifteen percent (15%). Interest on any Debt of any District, or other District obligations payable in whole or in part from the revenues derived from the Debt Service Mill Levy, shall be simple per annum interest, and shall not compound. All debt-related election ballot questions shall be drafted so as to reflect the provisions in this Section V.B. Prior to any election to authorize the issuance of Debt, the Districts shall cause a letter prepared by an attorney in the State of Colorado to be provided to the City opining that the election questions related to the Debt include the limitations in Section V.B.

4. Failure to observe the requirements established in this Section shall constitute a material modification under the Service Plan and shall entitle the City to all remedies available at law and in equity.

C. Debt Service Mill Levy, Operation and Maintenance Mill Levy and Maximum Combined Mill Levy.

1. Each District may impose an ad valorem Debt Service Mill Levy (a mill being equal to 1/10th of 1 cent) upon the Taxable Property within its boundaries for the purpose of paying the debt service requirements of any District's Debt. The Debt Service Mill Levy shall not exceed fifty (50) mills, subject to the Mill Levy Adjustment, without the prior approval of the City Council, which approval shall be evidenced by resolution. In addition, the Districts may request that the City process a Service Plan Amendment to increase the maximum Debt Service Mill Levy

that may be imposed to repay any District's Debt or to provide that the Debt Service Mill Levy shall be such amount as is necessary to pay the debt service on such Debt, without limitation of rate.

No Debt Service Mill Levy shall be imposed by any District to finance Public Improvements prior to the approval by the City of the City Approvals relating to that phase of development or Public Improvements within that portion of the Project Area.

No District shall impose a Debt Service Mill Levy for more than forty (40) years after the date on which such District imposed its initial Debt Service Mill Levy, unless: (a) a majority of the Board imposing the Debt Service Mill Levy is comprised of End Users, and (b) the Board has voted in favor of extending the time that the Debt Service Mill Levy may be imposed for the payment of Debt issued by such District.

2. Each District may impose an ad valorem Operation and Maintenance Mill Levy (a mill being equal to 1/10th of 1 cent) upon the Taxable Property within its boundaries for the purpose of paying Operation and Maintenance costs.

No Operation and Maintenance Mill Levy shall be imposed by a District until the Intergovernmental Agreement is executed by both the City and such District.

3. The maximum combined mill levy, including the Debt Service Mill Levy, Operation and Maintenance Mill Levy and overlapping District's mill levy, if applicable, (the "Maximum Combined Mill Levy"), shall not exceed sixty (60) mills, subject to the Mill Levy Adjustment, without the prior approval of the City Council, which approval shall be evidenced by resolution. In addition, the Districts may request that the City process a Service Plan Amendment to increase the Maximum Combined Mill Levy.

4. Failure to observe the requirements established in this Section V.C. shall constitute a material modification under the Service Plan and shall entitle the City to all remedies available at law and in equity.

D. Debt Parameters.

1. All Debt issued by the Districts must be issued in compliance with the requirements of Section 32-1-1101, C.R.S., all other requirements of State law and the provisions of this Service Plan. In addition, the Districts shall not: (a) issue any Debt; (b) impose a mill levy for the payment of Debt by direct imposition or by transfer of funds from the operating fund to the debt service fund; (c) impose and/or collect any Fees to be used for the purpose of repayment of Debt, or (d) levy any Special Assessments, prior to the approval by the City of the City Approvals relating to that phase of development or Public Improvements within the portion of the Project Area that will be financed with such Debt, mill levy, Fees or Special Assessments. Any District issuing Debt may engage an independent municipal advisor with regard to such transaction.

2. The maximum total aggregate principal amount of Debt that may be issued or incurred by all of the Districts combined shall not exceed Twenty Six Million Dollars (\$26,000,000), without the prior approval of the City Council, which approval shall be evidenced by resolution. Debt that is issued for the purpose of refunding outstanding District Debt shall not

be counted against such \$26,000,000 debt limitation, provided, however, that if the aggregate principal amount of the refunding Debt exceeds the outstanding aggregate principal amount of the refunded Debt, the increase in principal amount shall be counted against such debt limitation.

3. The Districts shall not pledge any revenue or property of the City as security for the indebtedness set forth in this Service Plan. Approval of this Service Plan shall not be construed as a guarantee by the City of payment of any of the Districts' obligations, nor shall anything in the Service Plan be construed so as to create any responsibility or liability on the part of the City in the event of default by the Districts in the payment of any such obligation.

4. Failure to observe the requirements established in this Section V.D. shall constitute a material modification under the Service Plan and shall entitle the City to all remedies available at law and in equity.

E. Debt Instrument Disclosure Requirement.

In the text of any instrument representing and constituting Debt, the District issuing or incurring such Debt shall set forth a statement in substantially the following form:

By acceptance of this instrument, the owner of this Bond agrees and consents to all of the limitations in respect of the payment of the principal of and interest on this Bond contained herein, in the resolution of the District authorizing the issuance of this Bond and in the Service Plan for the District.

Similar language describing the limitations in respect of the payment of the principal of and interest on Debt set forth in this Service Plan shall be included in any document used for the offering of the Debt for sale to persons, including, but not limited to, a developer of property within the Project Area.

F. Privately Placed Debt Limitation.

Prior to the issuance of any privately placed Debt, the District issuing or incurring such Debt shall obtain the certification of an External Financial Advisor substantially as follows:

We are [I am] an External Financial Advisor within the meaning of the District's Service Plan.

We [I] certify that (1) the net effective interest rate (calculated as defined in Section 32-1-103(12), C.R.S.) to be borne by [insert the designation of the Debt] does not exceed a reasonable current [tax-exempt] [taxable] interest rate, using criteria deemed appropriate by us [me] and based upon our [my] analysis of comparable high yield securities; and (2) the structure of [insert designation of the Debt], including maturities and early redemption provisions, is reasonable considering the financial circumstances of the District.

G. TABOR Compliance.

The Districts will comply with the provisions of TABOR. In the discretion of the respective Board, any District may set up other qualifying entities to manage, fund, construct and operate facilities, services, and programs. To the extent allowed by law, any entity created by a District will remain under the control of that District's Board, and any such entity shall be subject to and bound by all terms, conditions, and limitations of the Service Plan and the Intergovernmental Agreement.

H. District's Operation and Maintenance Costs.

In addition to the capital costs of the Public Improvements, the Districts will require operating funds for Operation and Maintenance costs; the first year's operating budget for all the Districts combined is estimated to be One Hundred Thousand Dollars (\$100,000) which is anticipated to be derived from the Operation and Maintenance Mill Levy, Fees, and other sources of Districts' revenue.

VI. AUDIT AND ANNUAL REPORT

To the extent that any District is required to prepare an audit in accordance with the provisions of State law, the District shall submit a copy of its annual audit to the City within 30 days of filing its audit with the State, which requirement may be waived by the City in its sole discretion.

The Districts shall be responsible for submitting an annual report to the City Clerk no later than March 1 of each year. The annual report shall include information as to the following:

1. Boundary changes made or proposed to any District's boundary as of December 31 of the prior year.
2. Copy of the Districts' budget resolutions for the current year and any budget amendments from the prior year.
3. Copy of the Districts' rules and regulations, if any, as of December 31 of the prior year.
4. Copy of any resolutions or Fee schedules adopted by any District relating to the imposition of Fees, Public Improvement Fees, or Special Assessments by any District.
5. Copy of any intergovernmental agreements among the Districts relating to the issuance of Debt, the financing of Public Improvements, or the construction, operation and maintenance of any of the Public Improvements.
6. A summary of any litigation which involves the Public Improvements as of December 31 of the prior year.

7. Status of the Districts' construction of the Public Improvements as of December 31 of the prior year.

8. A list of all Public Improvements constructed by the Districts that have been dedicated to and accepted by the City as of December 31 of the prior year.

9. A list of all Public Improvements that are owned and/or Operated and Maintained by any District, including identification of the standards by which the Public Improvements are required to be Operated and Maintained.

10. Notice of any uncured events of default by any District, which continue beyond a ninety (90) day period, under any Debt instrument.

11. Any inability of any District to pay its obligations as they come due, in accordance with the terms of such obligations, which continue beyond a ninety (90) day period.

12. Any alteration or revision of the proposed schedule of Debt issuance set forth in the Financial Plan.

VII. DISSOLUTION

Each of the Districts agree to file a petition in the appropriate District Court for dissolution, pursuant to the applicable State statutes when the Board of such District deems it to be in the best interest of such District to dissolve, provided that the District is no longer performing the Operation and Maintenance services and such responsibilities have been assigned to and assumed by another entity. In no event shall dissolution occur until the applicable District has provided for the payment or discharge of all of its outstanding indebtedness and other financial obligations as required pursuant to State statutes.

VIII. MEETING LOCATIONS AND DISCLOSURE NOTICES

All special and regular Districts' meetings shall be open to the public and shall be held at a location within City limits that is within twenty miles of the boundaries of such District. The Districts shall provide annual notice to all eligible electors of the Districts, in accordance with Section 32-1-809, C.R.S. In addition, the Districts shall record a District public disclosure document and a map of the boundaries of such District with the Clerk and Recorder of each County in which District property is located, in accordance with Section 32-1-104.8, C.R.S. The Districts shall use reasonable efforts to ensure that copies of the annual notice, public disclosure document and such map are provided to potential purchasers of real property within the Project Area as part of the seller's required property disclosures.

IX. INTERGOVERNMENTAL AGREEMENT

The Districts and the City shall enter into one or more Intergovernmental Agreements, a form of which is attached hereto as **Exhibit F**, provided that such Intergovernmental Agreement may be revised by the City and the applicable District to include such additional details and requirements therein as are deemed necessary by the City and such District in connection with the

development of the Project and the financing of the Public Improvements. Each District shall approve the Intergovernmental Agreement at its first Board meeting after its organizational election. Failure by each of the Districts to execute the Intergovernmental Agreement as required herein shall constitute a material modification hereunder. The Intergovernmental Agreement may be amended from time to time by the Districts and the City, provided that any such amendments shall be in compliance with the provisions of this Service Plan.

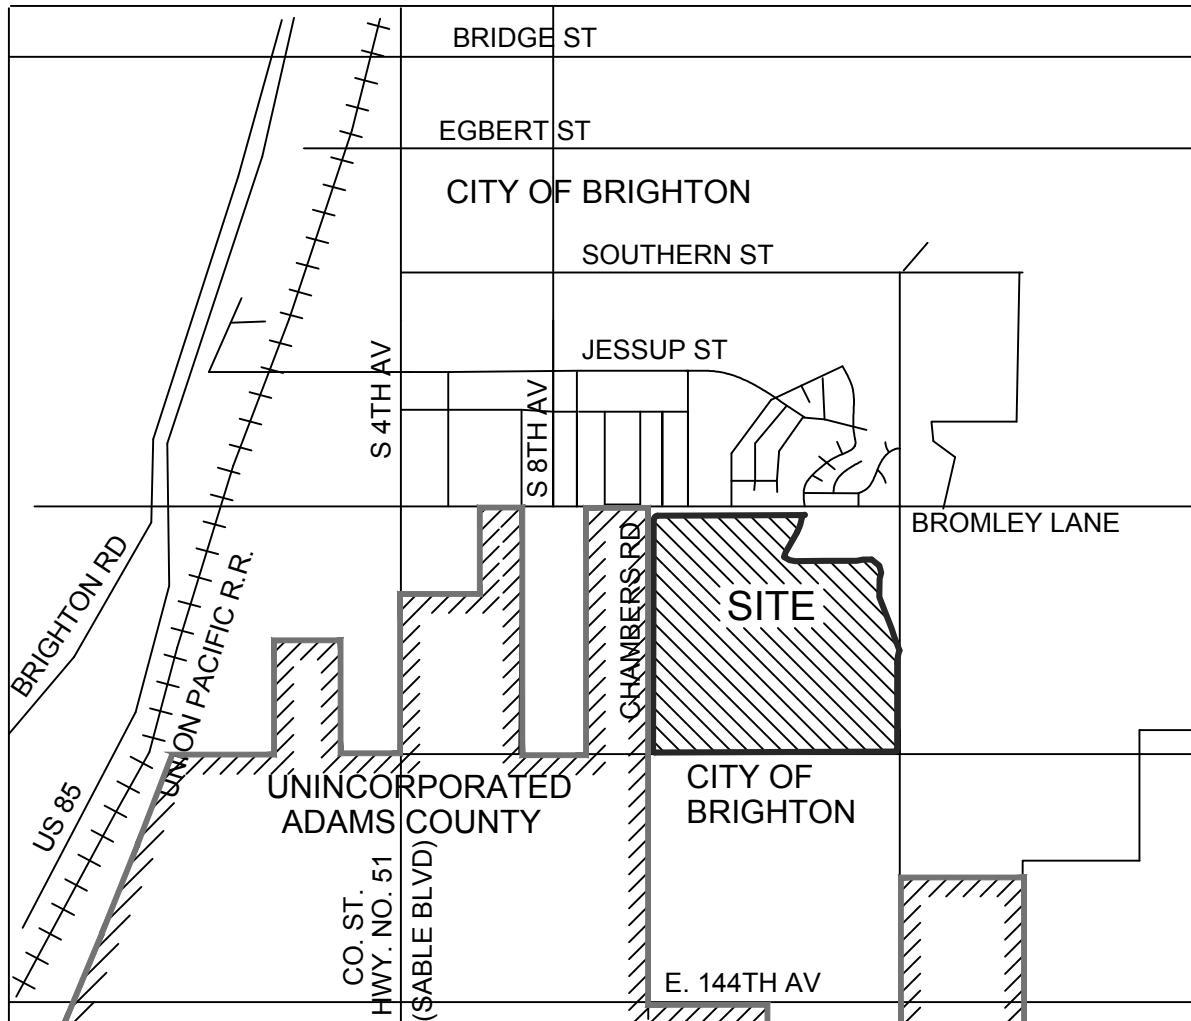

X. CONCLUSION

It is submitted that this Service Plan for the Districts, as required by Section 32-1-203(2), C.R.S., establishes that:

1. There is sufficient existing and projected need for organized service in the area to be serviced by the Districts;
2. The existing service in the area to be served by the Districts is inadequate for present and projected needs;
3. The Districts are capable of providing economical and sufficient service to the area within its proposed boundaries; and
4. The area to be included in the Districts has, or will have, the financial ability to discharge the proposed indebtedness on a reasonable basis.
