I. STATEMENT OF PURPOSE AND INTENT

Southgate Village is proposed as the third amendment to the Southgate Brighton Planned Unit Development (PUD). The 15.45-acre site is proposed as a distinctive paired home neighborhood is planned as a continuation of the Southgate Brighton mixed use neighborhood. Single family detached homes are located south of the site and Southgate Brighton future commercial development is located along the frontage of 120th Avenue north of the site. The single family detached homes and commercial areas are not subject to this amendment.

The PUD is intended to regulate the use of the land, the bulk, maximum height, minimum lot area, minimum lot width, minimum setbacks, uses permitted, accessory uses and buildings. It will also provide design controls associated with the design, siting and landscaping of the proposed uses. These design controls are intended to complement the City of Brighton's Residential Design Standards.

In compliance with the general intent of the City of Brighton Comprehensive Plan, the Southgate Village PUD provides the City with a complementary land use within the overall Southgate Brighton PUD. The PUD provides a coordinated and harmonious development which will best promote the health, safety, order, convenience, prosperity and general welfare of its residents. The PUD responds to the goals and policies of the City of Brighton Comprehensive Plan and is planned to ensure high quality development compatible with the surrounding land uses and the natural environment.

Overall, the PUD will provide a pedestrian network throughout the neighborhood with trails and sidewalks connecting to the central open space/park and the nearby neighborhood park within the Southgate Brighton single family neighborhood. The PUD will also provide an alternate home type complementary to the single family neighborhood to broaden the market offering.

RECOMMENDED PLANTING

All common area landscaping shall use xeriscape plantings grouped by hydrozones for efficient water use. The tree lawns along the public streets will be installed by the developer and are intended to use low water requiring turf and drought tolerant trees. High visibility areas such as the perimeter buffers and streetscapes shall incorporate xeriscape plantings. Small areas of specialty plantings, requiring moderate water usage are permitted to highlight major neighborhood entries. These plantings shall provide seasonal interest and shall be grouped by hydrozones for water efficiency.
