

ERP CONSULTING SERVICES REQUEST

Strategic Focus Areas:

Innovative, Data-Driven, Results-Focused City Government

Financially Responsible

Supportive, Sustainable Infrastructure

CURTIS POLLOCK

ASSISTANT DIRECTOR OF INFORMATION TECHNOLOGY

WHAT IS ERP – ENTERPRISE RESOURCE PLANNING

- ERP, Enterprise Resource Planning, is an integrated computer system that manages multiple *core business processes* such as human resources, finance, manufacturing, supply chain, and procurement.
- An ERP system is made up of enterprise resource planning applications (“ERP modules”) that talk to each other and share a database.
- Eliminates data silos.
- Single source of truth.
- Business process automation.
- Better service delivery to citizens.

CURRENT INNOPRISE SYSTEM ISSUES

- ❖ Periodic service interruption
- ❖ System performance & latency
- ❖ No external online customer portal
- ❖ Incorrect data capture on reports
- ❖ Mandatory State reports are not included
- ❖ Numerous gaps in features and functionalities
- ❖ Not easy to use for staff (redundant keystrokes and mouse clicks for simple tasks)

PROJECT SCOPE

- Gap analysis
- Process improvement
- Assessment report
- Final functional and technical requirements report
- RFP package
- Facilitate vendor interviews and demonstrations
- Reference checks
- Vendor scoring and negotiation
- Optional: system implementation phase
 - ❖ Either full-time project management or limited advisory assistance
