## How the Program Works

An initial telephone interview is conducted to determine preliminary eligibility.

An application is mailed to homeowners who meet preliminary eligibility requirements and income guidelines.

If the application is approved, the Adams County Housing Coordinator will conduct an on-site visit to determine essential repairs needed.

A description of work and a cost estimate are prepared, reviewed by the homeowner, and released for bid to local contractors.

The contractor with the lowest qualified bid will usually be selected to complete the work on the home.

All work will be inspected for completeness and compliance with local building codes.

Average grant amount is approximately \$3,000 - \$7,000 per home.
