

124th Reservoir Grant of Easements to Metro

Presenting: Brad Dallam, Assistant Director of Utilities
Project Manager: Brad Dallam, Assistant Director of Utilities

Strategic Plan

Supportive and Sustainable Infrastructure

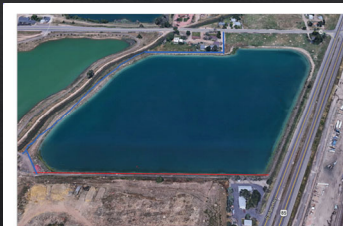

Introduction

- ◆ Project Background
- ◆ Project Details
- ◆ Final Recommendation

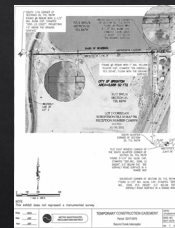

Project Background

- ◆ The City of Brighton owns a reservoir at 124th Avenue and US 85, which is used for augmentation.
- ◆ Metro Wastewater is constructing a sewer interceptor sewer
- ◆ Through their design process they determined that the best route was through the property to the south of our reservoir
- ◆ Line is close enough to the property line, they need a construction easement
- ◆ They also need access from the north

Temporary Construction Easement

Final Recommendation

Staff believes granting the easement to Metro Wastewater is in the best interest of the City

COUNCIL OPTIONS

- Approve Easements
- Not Approve Easements
- Send back for further negotiations
