Department of Finance

Reference: Investment Policy Resolution

To: Mayor Richard N. McLean and Members of City Council

Through: Clint Blackhurst, Acting City Manager

Prepared By: Dan Frelund, Director of Financial Services

Date Prepared: February 21, 2017

PURPOSE

To approve an updated version of the City's Investment Policy by Resolution.

BACKGROUND

The current City Investment Policy was adopted via resolution on December 14, 2014.

The Investment Policy has the provision for annual review by the City Manager and by the City Council at least every five years. Our advisors, PFM Asset Management, are recommending changes to the "Authorized Investment Summary". They will be attending the February 28, 2017 City Council Study Session to present and answer any questions.

Changes to the investment policy are being recommended to:

- provide diversification requirements by security type located in the authorized investment summary. (The first attachment titled "Changes Tracked Version Investment Policy" indicates in color the proposed changes which are all on the Appendix, except for minor underlining of section headings.)

STAFF RECOMMENDATION

Approve the updated version of the investment policy resolution.

OPTIONS FOR COUNCIL CONSIDERATION

1. Approve
2. Deny
3. Approve with recommended changes

ATTACHMENTS
