*Mayor Kreutzer read the title of the Resolution into the record.*

City Manager Philip Rodriguez introduced Senior Systems Administrator Shaun Thomas.

Senior Systems Administrator Shaun Thomas presented the IT Infrastructure Upgrade project. This project would upgrade and replace the current servers to increase performance and meet the growing data needs of the City. This would renew support and maintenance agreements for existing server hardware and bring support back to the newly replaced server hardware. Increase storage space for files and implement a good backup/restore solution. Consolidate power usage and reduce carbon footprint by reducing the number of servers. Ten old servers would be replaced with five new servers. Create a more workable disaster recovery solution at a secondary location. This would help to bring the system back online as quickly as possible if there were a catastrophic event. abba Technologies has worked with Hewlett Packard Enterprise with the contracts to ensure the City is getting a great price for reliable equipment. The components for the project include maintenance support, technical support, existing server support renewal, new servers, new storage hardware and new backup/restore software for \$240,778.67. This amount was approved in the 2019 budget. Staff recommends approval of the contract with abba Technologies. Senior Systems Administrator Thomas answered questions from Council regarding:

- The tech support and server support for this product lasting for one year or several years.
- The cost of the product being more the first year for installation.
- The renewals being included in the budget each year.
- The second facility for backup being housed at another location in the City.
- The security of the system alerting staff if the system is compromised.
- Less space needed for the new servers.
- The ability to upgrade the system before the old servers fail.
- The timeframe for completion of the project.

*Mayor Kreutzer read the title of the Resolution into the record.*

**C. A RESOLUTION APPROVING THE PROFESSIONAL SERVICES AGREEMENT RETAINING KELLER ROHRBACK L.L.P. AS SPECIAL COUNSEL; AUTHORIZING LITIGATION FOR CLAIMS AGAINST PHARMACEUTICAL COMPANIES AND DISTRIBUTORS; AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT**

*Mayor Kreutzer read the title of the Resolution into the record.*

*City Manager Rodriguez introduced City Attorney Jack Bajorek.*

*City Attorney Jack Bajorek explained that this item relates to the devastating result of opioid abuse in Brighton, Colorado and the nation. The Resolution requests to authorize the retention of the law firm of Keller Rohrbach to represent the City in exploring potential claims that the City may have against a number of potential defendants regarding specific bad acts, falsification of results, falsification of impacts, and fraudulent marketing techniques. Brighton is being asked to join a coalition of a number of other jurisdictions in Colorado. Keller Rohrbach represents sixteen other jurisdictions, a number of those have already filed lawsuits. This would take a fast track based on what is happening nationally as there have been a number of cases that have trial dates set in the District Court in Ohio to try to get resolution within the next couple of years. This action allows Keller Rohrbach to help the City through the process to see if there are actionable claims, to decide whether the City wants to pursue those claims, and to pursue those claims if warranted by potentially filing a lawsuit. This is a contingent fee arrangement; there is no cost to the City unless the City was to prevail. Brighton's case would be grouped with all other cases in Colorado. City Attorney Bajorek answered questions from Council regarding:*

- There being anything happening at this time.*
- The City being judicially attached to other Colorado cases at this time.*
- The percentage collected by the Special Counsel if the City prevails.*
