RE: City of Brighton- Request for Determination of Service

Mr. Conway,

As you are aware, the City of Brighton ("Brighton") and Metro Water Recovery ("Metro") entered into a Sewage Treatment and Disposal Agreement ("Service Contract") on June 16, 2009. Exhibit B to the Service Contract depicted the Brighton wastewater service area tributary to Metro's facilities. Exhibit B also depicted the Brighton wastewater service area tributary to the Town of Lochbuie's wastewater treatment plant. Brighton now desires to expand the Brighton wastewater service area tributary to Metro's facilities to the entirety of Brighton's wastewater service area.

Pursuant to Colorado Revised Statutes §32-4-513(2)(a), please consider this letter as the requisite written request from Brighton in order for Metro to determine the feasibility of serving the entirety of Brighton's current and future wastewater service area at Metro's facilities and the terms and conditions upon which such service may be provided. The City of Brighton City Council has formally authorized this request pursuant to **Resolution 26-01**, enclosed with this letter.

Thank you for your consideration and Brighton looks forward to the results of an investigation into the above requests per the statutory provisions.

Michael Martinez
City Manager
City of Brighton

Enclosure: Resolution 26-01

CC: Scott Olsen, Director of Utilities, City of Brighton

Marv Falconburg, Deputy City Manager, City of Brighton

Alicia Calderon, City Attorney, City of Brighton

Yasmina Gibbons, Deputy City Attorney, City of Brighton

Emily Meek, Assistant Director of Utilities, City of Brighton

Dawn Ambrosio, Chief Strategy Officer, Metro Water Recovery

Sherman Papke, Chief Technical Officer, Metro Water Recovery

Jennifer Robinett, Director of Environmental Services, Metro Water Recovery
