Hello Ms Lane

I am writing this email because I am not sure that I will be able to make the meeting Thursday night. I wish to share my view on the proposed zoning change for the property between Purcell st and the Presbyterian church.

I would encourage you to NOT recommend a change of zoning. The reasons I oppose this development is that this is predominantly a single family residential area and the city should put new apartments near the existing apartments South of Bromley near King Soopers or near Prairie center or behind Big Lots. This would make shopping convenient to apartments.

I also am concerned about the impact that this growth will further strain the schools, fire and police departments and our shortage of water. Thank you, Dave Rich. 2404 Comanche Creek Dr.
